Hi everyone,

Is the version on the I drive final? I need to wrap up the briefing paper asap.

Thanks,

Dee

I added your bullets to a version I had saved to the restricted share I drive folder to comment on Jody's bullets. How about we all add comments or additional bullets there from this point forward?

In the attached draft I added in a few bullets covering the economic impact analysis – including costs, benefits, and data sources.

Thanks Cindy, I re-worked the fourth bullet, and split it into two bullets/ideas, based on your comments.

Hi Cindy,

I just saw your question in the document: Will this be like the Initial designation where states may also have preliminary information about 2017 monitoring data that could also help inform their recommendations? (like in first bullet).

Yes, preliminary 2017 monitoring data can be considered by us when we issue the final designations in late 2017. The states will have already made their recommendations based on the 2013-2015 data (and preliminary 2016 data) in late 2016.

Thanks,

Jody

Jody –

Attached are my comments on that 4th bullet –see if that’s what you were looking for.

All –

I reckon we should get a bullet in there that addresses the gas conserved as a result of this proposed rule:

Subject: RE: U&O FIP

Hi All,

Please find attached draft talking points regarding the designation schedule vs. FIP schedule/effective date. Is there a better way to soften the fourth bullet, i.e. that the FIP controls will not be in place soon enough to impact the final designations classifications?

I appreciate your comments/suggestions.

Thanks,

Jody

Subject: U&O FIP

Hi there,

As you know, we had a consultation with the Ute Tribe last week on Deseret and the U&O FIP. There will be a follow up consultation in early January (targeting the week of January 11th), to further discuss the FIP. In preparation for that meeting, we need to put together some talking points, which I am working on. However, it would be helpful if I could get a few bullets from you all to justify the FIP. Cost was one item that was brought up in the consultation (cost analysis, economic benefits, overall costs, push back from companies due to low oil prices), so a

few bullets on what the costs are and where we got the data (based on national rules, Colorado rules etc) from would be helpful, expected AQ improvements, details on designation schedule vs. FIP schedule/effective date. Jody and Cindy, did I miss anything? I would need the bullets, at the latest, by January 4th, since we will need to get them to Shaun a week in advance of the consultation.

Thanks,

Dee
